

Sheffield Chair

The Sheffield Club Chair is a collaboration between our studio and a New England-based master upholsterer.

The sofa features eight-way hand-tied springs, 100" natural latex (or alternative cotton/down) cushion; horsehair and foam built up arm and back. The frame is hard maple with exposed wood elements available in Black Walnut (oiled or oxidized) and White Oak (oiled, fumed or oxidized).

Upholstery is COM, with approval.
